WORKING at ENISA

WELCOME TO ENISA

JUHAN LEPASSAAR
ENISA EXECUTIVE DIRECTOR

Dear new colleague,

A warm welcome to the ENISA team and community.

As an organisation, ENISA strives to accomplish its mission and meet the cybersecurity stakeholders' expectations by being a socially and environmentally responsible Agency that upholds its values of excellence in expertise, openness, innovation and cooperation in all areas of its work.

ENISA relies on every single team member; and I count on you to keep these values close to your heart when exercising your functions.

I encourage you to share with us your experience and unique sides. This is, after all, why we selected you and are so happy that you chose us. We strive to work together with open minds and a great respect of each other's differences, as we strongly believe diversity enriches us as an organisation. Our wide range of backgrounds, and the various ways we can perceive and observe things is what makes ENISA unique. This is our joint strength.

Please take time to enjoy the rich history, nature and social fabric of our host country, Greece. If you are Greek and hence blessed with this knowledge already, now is the time to dwell into the cultural, culinary and linguistic richness of Europe by getting to know your colleagues from across the Union.

I personally welcome you to this new journey at ENISA and look forward to working with you. We are a team and are all here to help you along this new road of discovery.

Best wishes,

Juhan Lepassaar
Executive Director

This work also contributes to the proper functioning of the Digital Single Market.

The European Union Agency for Cybersecurity holds a unique and enhanced role under the mandate of the Cybersecurity Act Regulation by contributing to a wide range of activities, pursuant to Chapter II of Regulation (EU) 2019/881 – Cybersecurity Act (CSA).

Chapter II of Regulation (EU) 2019/881 – Cybersecurity Act (CSA)

- **Article 6: Capacity-building**
- **Article 7: Operational cooperation at Union level**
- **Article 8: Market, cybersecurity certification and standardisation**
- **Article 9: Knowledge and information**
- **Article 10: Awareness-raising and education**
- **Article 11: Research and innovation**
- **Article 12: International cooperation**

ENISA also supports the development and implementation of the European Union's policy and law on matters relating to network and information security (NIS) and assists Member States and European Union institutions, bodies and agencies in establishing and implementing vulnerability disclosure policies on a voluntary basis.

Since 2019, following the bringing into force of the Cybersecurity Act (Regulation (EU) 2019/881), ENISA has been tasked to prepare the 'European cybersecurity certification schemes' that serve as the basis for certification of products, processes and services that support the delivery of the Digital Single Market.

The European Cybersecurity Act introduces processes that support the cybersecurity certification of ICT products, processes and services. In particular, it establishes EU wide rules and European schemes for cybersecurity certification of such ICT products, processes and services. ENISA is committed to upholding values such as excellence in expertise, openness, innovation, cooperation in all areas of its work.

There are two types of teleworking: structural (regular periods of teleworking) and occasional teleworking (on a temporary basis).⁴

The exact number of leave for each staff member varies according to certain criteria but roughly adds up to an average of 5 weeks per year, without taking into account bank holidays. The Agency is closed between Christmas and New Year's Eve. Staff members are allowed to choose between the Catholic or Orthodox bank holidays. Special leaves are also available for certain events such as relocation, wedding, birth, removal, elections, illness of family members, EPSO/EU competitions, etc.

1.7 LEARNING AND DEVELOPMENT (L&D) OPPORTUNITIES

ENISA strives for excellence in the approach of developing staff and to create a learning culture by valuing the impact of staff on ENISA's ability to achieve its mission, to facilitate innovation and knowledge sharing across and beyond the Agency and to comply with EU regulatory requirements (such as the Ethics and Integrity's mandatory training).⁵ The Agency also has a Service Level Agreement with the European Commission which enables staff to benefit from trainings organised by them.

Additionally, there are plenty of public and private facilities around the office ranging from parks to basketball courts, gyms, swimming pools, indoor climbing walls, fencing clubs, horse-riding courses, etc. Several staff members also cycle to work. Athens is also famous for [its Athens Marathon the Authentic](#).

1.12 CHRISTMAS PARTY AND SUMMER GATHERING EVENT

The annual ENISA Christmas party and the annual summer gathering event are memorable social experiences with a lot of pictures!

1.13 STAFF COMMITTEE

The Staff Committee is the main body representing staff to the management. Don't hesitate to get in touch with them at StaffCom@enisa.europa.eu.

1.14 PREVENTION OF HARASSMENT AND CONFIDENTIAL COUNSELLOR(S)

ENISA is strongly committed to the prevention of harassment, promoting the policy and procedures of anti-harassment at work and condemning inappropriate behaviour. To this end, ENISA organises regular awareness sessions for its staff and has created a dedicated Intranet page on this topic.

⁵ See Decision No MB/2018/9 of the Management Board of the European Union Agency for Network and Information Security (ENISA) on the Framework for learning and development.

In addition, ENISA's staff avails of Confidential Counsellor(s) support. You may contact ENISA's confidential counsellor at AntiHarassment.Counsellors@enisa.europa.eu

1.15 CODE OF CONDUCT

In line with the Conditions of Employment of other servants of the European Union, notably Article 11, statutory staff are bound by Title II, Articles 11 to 26a of the Staff Regulations ([Rights and obligations](#)), which refer to the provisions to ethics, conduct, integrity, sexual and psychological harassment.

2. BEFORE TAKING UP YOUR DUTIES

2.1 BANK ACCOUNT FOR YOUR SALARY

While recommended, there is no obligation, as such, to open a bank account in Greece as your salary can be paid to any bank account in an EU Member State. If you wish to open a bank account in Greece, you will need to firstly take up employment at ENISA and find a fixed address in Greece.

Due to the payroll cycle of the EU institutions, the first salary is usually received within two months of taking up duty. The salary is paid by the 15th day of the month for the current month.

2.2 TRAVELLING EXPENSES FOR TAKING UP DUTIES AT ENISA

ENISA may pay a flat-rate contribution towards travel expenses for you and your family to move to Greece. The flat rate is based on the distance and is calculated from where you were recruited to the place of work. Make sure that you keep all original tickets, boarding passes or invoices. Reimbursement rates are defined in the Staff Regulations in Annex VII, Section 3, Article 7. Please contact the HR Sector for details.

3. UPON ARRIVAL IN ATHENS

3.1 REGISTERING WITH THE LOCAL AUTHORITIES

ENISA will support you in liaising with local authorities, notably for the following matters:

3.1.1 Issuing a tax number

All staff members are required to register with the Greek authorities to obtain a Greek Tax Number (AFM number). The AFM (Αριθμός Φορολογικού Μητρώου, ΑΦΜ) is the personal Tax Identification Number (TIN) and can be obtained from the local Tax Office/Internal Revenue Services (Εφορία/ Eforia). The nine-digit number is unique to each individual. It is required when dealing with most Greek authorities and when completing almost any kind of paperwork, for example, opening a bank account or buying a car or motorcycle. A colleague from the Resources Department will help you with the administrative formalities (local “Eforia”).

3.1.2 Residence permit

In order to issue your residence permit you will need the AFM number and your residence contract.

Tip: Tax declaration is obligatory for all residents in Greek territory, ENISA employees do not pay taxes in the country however they need to make a zero income declaration.

3.1.3 Special ID from the Ministry of Foreign Affairs

As an ENISA Staff Member, you and all your family members are residents and are granted special diplomatic IDs issued by the Greek Ministry of Foreign Affairs.

The diplomatic status provides certain benefits (see “Moving around in Athens and Shopping”).

3.2 FOREIGN EMBASSIES IN ATHENS

ENISA strongly recommends newcomers to follow the rules of their country of origin on their duty to register at their embassy in Greece. Below you can find the list of foreign Embassies in Athens with their contact details.

4. FINDING A PLACE TO LIVE

Short-term rentals can be recommended for the first few weeks upon taking up duty, so as to have enough time to discover the neighbourhoods in which you would want to settle. Please bear in mind that newly appointed staff members are subject to a 9-month probation period during which they may receive a daily subsistence allowance payable per day to compensate you for the costs and inconveniences of settling in at the place of work on a provisional basis. The period which the daily allowance can be granted depends on your situation but ends in any case on the date of your removal. The daily allowance may be granted for up to 10 months or 120 days if there are no dependents.

In addition, staff may avail of the installation allowance. The installation allowance is paid to temporary or contract agents who provide proof that they had change their place of residence to meet the requirements of Article 20 of the Staff Regulations.

You may be entitled for reimbursement of removal costs. The reimbursement of removal costs is subject of prior authorisation and we recommend you contact HR for the process clarification.

We recommend short-term rentals first, to have enough time to discover the neighbourhoods in which you would want to settle. Long-term rentals (one year and more) can be negotiated directly or through real estate agencies

4.1 HOUSING

There are multiple real estate agents in Athens easily found on the Internet; they tend to specialize in different products and areas. Bear in mind that it is close to impossible to get the exact locations of rentals you might be interested in until an agent actually brings you in for a visit. Do not be surprised if you are asked to sign a document indicating that the agent has exclusivity, should you want to rent the place you are visiting.

Indicative list of websites (we recommend to search in Intranet as large number of companies operate in this area):

- Spitogatos - <https://en.spitogatos.gr/>
- xe - <https://www.xe.gr/property/en/>
- Blueground - <https://www.theblueground.com/>
- Yestay - <https://yestayhomes.com/rent-apartments-athens-greece>
- Epxat - <https://www.expat.com/en/housing/>
- Bluekey - <https://www.bluekey.gr/en>
- Just Landed - [https://housing.justlanded.com/en/Greece Attica Athens](https://housing.justlanded.com/en/Greece_Attica_Athens)
- Allabout Property - <https://allaboutproperty.gr/>
- RealEstate24 - <https://realestate24.gr/>
- City properties - https://www.cityproperties.gr/en/houses_for_rent.php?Page=1

For temporary solutions (weeks to months), there are plenty of options around the office from hotels to furnished flats. We suggest that you also have a look at expatriates' websites and classified ads. You should get familiar with the Athens map and in particular with the Chalandri area (where ENISA is located) as traffic can be dense during rush hours.

Long-term rentals (one year and more) can be negotiated directly with the landlord or with the support of real estate agencies (the ads on the websites indicate who placed it, the owner or a real estate agency). Concerning agents' fees, make sure that you negotiate them in advance. These tend to vary between one and two months for long-term rentals. For short-term rentals, if an agent helps you, the fee generally amounts to 10% of the monthly rent. We recommend that

you avoid rental contracts of longer than 3 years, as they are difficult to discontinue should you decide to change flat within the same area.

All in all, it takes time to settle and we recommend you not to bind yourself into a long-term contract without having taken the time to discover the areas and spend a few months living in Greece.

Tips: South orientation helps you save energy most of the year, but can require more air-conditioning during summer. Solar panels are often available, if not, you could discuss this with your landlord. Reversible A/C, double-glazed windows and good isolation are important to consider, as it gets both very cold and very warm over the year. We advise that you consider modern constructions for seismic reasons. During summertime, mosquitos can be an issue in Athens; look for flats with pre-installed mosquito nets (recommended for families with kids) and stay away from humid areas!

4.2 MONTHLY EXPENSES

Common expenses associated with your accommodation vary greatly depending on size and location. Likewise, water and electricity rates may vary by usage and/or season. As an indicative price, for accommodation you can expect to pay between 5 and 7€ per square meter for large apartments, depending on the area. It should be noted that a seat agreement between ENISA and the Hellenic Authorities further gives privileges for the employees of the Agency within the context of the above expenses. Relevant information shall be provided upon your in-boarding process.

4.2.1 Heating

Heating in Greece is rather expensive and we encourage you to look closely at the availability of gas, oil and solar panels. Most of the houses in the areas around the ENISA office have gas heating. The bill is included in the monthly community expenses. For instance, heating a 200m² in plain winter can cost 100-200 of euros per month just in oil. Landlords are generally able to provide past bills as an indication. It should be noted that a seat agreement between ENISA and the Hellenic Authorities further gives privileges for the employees of the Agency within the context of the above expenses. Relevant information shall be provided upon your in-boarding process.

4.2.2 Internet

In some cases the house offers also Internet services which are included in the monthly expenses (or in the rent). There are many companies that offer internet services and you can find a lot of information online. If the line already exists, it may take up to 15 days after contract signature to provide you with Internet.

4.3 NEIGHBOURHOODS AROUND THE ATHENS OFFICE

The ENISA office is located in the Chalandri neighbourhood in the Northern area of Athens. Chalandri is a large prefecture and is considered as one of the best to live in Athens, together with all the areas surrounding it.

Chalandri has many options for accommodation, as do the following nearby areas: Marousi, Cholargos, Kifissia, Politia, Pefki, Penteli, Melissa and Vrilisia.

Chalandri and Cholargos are trendy with lots of restaurants, bars and Greek night life. Pefki and Melisia are great if you do not want to live next to the office, but still come walking or cycling. Penteli is also a residential area and offers spacious houses and nice views from the Penteli Mountain, just like Politia. Kifissia and Vrilisia are family friendly with schools and crèches, expats' community and plenty of activities.

AROUND THE OFFICE

The ENISA office is located in the Chalandri neighbourhood in the Northern area of Athens. Chalandri is considered as one of the best to live in Athens, together with all the areas surrounding it.

4.4 HOME INSURANCES

Home insurances against fire and break-ins are available. There is no obligation to subscribe to one though.

4.5 LIFE WITH PETS

Athens is a pet-friendly city, especially in the northern suburbs. There are excellent veterinarians close to the Office (colleagues with pets can give you recommendations). Most of the tourist infrastructure is also pet-friendly, but do check beforehand to avoid surprises. We also recommend you to familiarise yourself with the European Regulations on Pet Travel.

5. FINDING THE RIGHT SCHOOL FOR YOUR CHILDREN

5.1 EDUCATIONAL SYSTEM IN GREECE

The education system in Greece is administered by the Ministry of Education and Religious Affairs. The Ministry exercises centralised control over state schools including dictating curriculum, appointing staff and controlling funding. Private schools also fall under the mandate of the Ministry. State-run education is free, including tuition and textbooks.

FIGURE 2: EDUCATIONAL SYSTEMS COMPARISON

5.2 PRE-SCHOOL EDUCATION

There is a significant number of nursery schools around the office, several of them with English-speaking groups. Under certain conditions and budget availability, ENISA covers crèche costs for up to 600 EUR per month per child. Important factors to consider are accessibility, entry age requirements, and food. Indeed, some institutions do not offer cooked meals. All of them offer bus service.

Greek parents should have no difficulty finding Greek-speaking institutions. ENISA do not recommend any schools, however a non-exhaustive list of nursery & pre-primary schools is mentioned below:

6. HEALTHCARE

6.1 JSIS - OUR HEALTHCARE INSURANCE (JOINT SICKNESS INSURANCE SCHEME)

Upon taking up duties you become eligible to health insurance provided by the European Commission. It covers you and may cover your family members (provided some family conditions are met, for instance if your partner is unemployed or does not receive unemployment subsidy, but not in the case your partner earns more than a specific amount, which is determined every year) and supporting documents are accepted. In some cases, health insurance covers only staff members. For most common expenses, it covers 85% with a reimbursement ceiling applicable. Private optional top-up insurance packages are available as well. As a Staff member, you will have the opportunity to manage your health care activities/reimbursements via the European Commission online tools ("JSIS Online and PMO Portal") where you can get plenty of information and updates on several health matters. ENISA HR will provide you with more details on this during your induction.

JSIS covers 80-85 % of common expenses with a reimbursement ceiling applicable. Private optional top-up insurance packages are also available.

You are advised to bring a valid European Health Insurance Card (E111) with you. All residents of European Union countries who carry a valid E111 form, are entitled to receive free immediate, urgent medical care in Greece.

6.2 HOSPITALS

There are multiple public and private hospitals and medical centres around ENISA. JSIS is in the process of negotiating arrangements with certain hospitals in order to cover hospitalisation costs directly (direct billing), without the Staff member having to pay the hospital directly. Further information will be provided upon arrival. Athens has many hospitals, a directory of which are shown [here](#). In addition, you may consult the following link for a doctor database that covers different specialities, [here](#).

6.3 PREGNANCY

Several mothers (ENISA Staff/partners) have already given birth in Athens. Certain conditions apply but most costs related to pregnancy and confinement are reimbursed up to a ceiling based on the rules of JSIS. Although babies born in Greece do not hold the Greek nationality, they must be registered in the municipality registry days after the birth, where the birth certificate is issued for parents to claim the newborn's identity documents from their respective consulates. The procedure requires the translation in Greek of official documents (marriage certificate for instance) so as for the Greek local authorities to be able to process the names of the baby and the parents and issue the birth certificate.

6.4 MEDICAL ADVISOR

ENISA avails of a medical advisor, whom provides medical guidance and conducts the annual medical examination of staff. The medical advisor can also give advice on finding a family doctor, dentist and any other local medical service.

8. FEW FACTS ABOUT GREECE

The host Member State, Greece is considered the cradle of Western civilization, being the birthplace of democracy, Western philosophy, the Olympic Games, Western literature, historiography, political science, major scientific and mathematical principles, and Western drama.

Athens is the capital and largest city in Greece. It is one of the oldest cities, with its recorded history spanning over 3,400 years and its earliest human presence starting somewhere between the 11th and 7th millennium.

Athens is a global city and one of the biggest economic centres in South-eastern Europe. It has a large financial sector, and its port Piraeus is both the largest passenger port in Europe, and the second largest in the world.
